**Support Snake Valley in the legal battle to keep its own water!  
Proceeds from the festival go to the Great Basin Water Network.**

Snake Valley's water is still under attack. Although favorable court decisions have been made, the battle is not over. Southern Nevada Water Authority is planning to pump massive amounts of groundwater from the basin every year. Experts believe that springs would dry up, water dependent plants would die, and eventually animals would be displaced. In short, Snake Valley would never be the same again.

In order to protect this fragile desert and our livelihoods, we will have to fight. Legal costs are likely to be very high. If you would like to help, please consider a donation. Great Basin Water Network supports scientific, technical, and legal efforts to protect the future of Snake Valley.
